

Practical 10: AI Text Bias & Plagiarism

Aim

To analyze AI generated text for plagiarism and bias.

Objectives

- To detect biased statements
- To improve writing

Materials Required

- ChatGPT / Gemini
- Grammarly

Procedure

1. Generate paragraph from AI – Use an AI writing tool to produce a clear, coherent paragraph on your chosen topic.
2. Check plagiarism – Run the paragraph through a plagiarism checker to ensure originality and proper attribution.
3. Check grammar – Review the text with a grammar tool to correct errors in punctuation, spelling, and sentence structure.
4. Identify biased statements – Examine the content for subjective language, assumptions, or one-sided viewpoints.
5. Rewrite neutrally – Revise the paragraph to remove bias, ensuring the tone is balanced, objective, and fact-based.

Online learning increasingly eclipses traditional offline methods by offering unparalleled flexibility and accessibility that modern life demands. Unlike rigid physical classrooms, digital education dissolves geographical barriers, allowing students to access top-tier resources and expert instructors from anywhere in the world without the burden of commuting. This format inherently personalizes the educational experience; learners can dictate their own pace, pausing to master complex concepts or accelerating through familiar material, ensuring genuine comprehension rather than mere attendance. Furthermore, online learning is often more cost-effective, eliminating travel expenses and reducing material costs. By prioritizing convenience and adaptability to individual schedules, online platforms provide a more efficient, democratized, and student-centered approach to acquiring knowledge compared to the constraints of conventional schooling.

✓ High plagiarism level
