Practical 6: Create Digital Identity – LinkedIn

Aim

To create and modify digital identity using LinkedIn.

Objectives
- To create professional online profile
- To update personal information

Materials Required
- LinkedIn account

Procedure

Create LinkedIn profile
Sign up on LinkedIn using your email and set up a new profile.
This gives you access to professional networking and career-building tools.

Add photo, bio, education
Upload a clear professional photo and write a short bio summarizing who you are.
Enter your educational details to complete your basic profile information.

Add skills
Use the "Skills" section to list your technical and soft skills.
Adding relevant skills increases your visibility and strengthens your profile.

Create a simple post
Click "Start a Post" and write a short, meaningful update or introduction.
Share it publicly to begin engaging with your professional network.

Change privacy settings
Go to **Settings & Privacy** to adjust what others can see on your profile.
Modify visibility, contact preferences, and data-sharing options as needed.

🎓 Course Completion | Introduction to HTML, CSS, & JavaScript
 I've successfully completed the Introduction to HTML, CSS, & JavaScript course offered by IBM through Coursera.
Through this course, I strengthened my understanding of:
 ◆ Structuring web pages using HTML
 ◆ Styling and designing web pages with CSS
 ◆ Adding interactivity with JavaScript ...more
